Cameron Parish Police Jury
ENFORCEMENT FOR RESIDENTIAL CONSTRUCTION**

Effective January 1, 2023, the adoption of the 2021 International Building Code by the Louisiana State Uniform Construction Code Council, the following documentation must be submitted for plan review prior to issuance of a building permit to ensure compliance with wind load and flood provisions within Cameron Parish (in its entirety).

Maximum size limitation is 1000 square feet of enclosed area.

Be advised, the review process may take up to one (1) week

- **400 square feet or less in 130 mph wind zone**
 - **Plans from manufacturer or rough sketch. No plan review**
 - **Flow through vents must be installed if constructed below Base Flood Elevation in AE flood zone**
 - **Must be tied down**
 - **Non-conversion agreement filed at Clerk's Office, provided by permit office**

- **Over 400 square feet in 130 mph wind zone**

Plans to be provided by manufacturer or homeowner must include:

- **Must submit architect or engineered stamped plans, including the foundation design certifying wind load and design criteria.**
- **Site Plan (dimensions, property lines, setbacks, existing structures)**
- **Foundation – size and depth of post or piles. Show thickness of concrete slab**
- **Footings - size, depth and rebar**
- **Wall section(s), foundation through roof**
- **Roof Framing or truss layout plan (show hold down locations to meet required wind speed)**
- **Basic Electrical (receptacles, switches & fixtures)**
- **Location of Window and Door**
- **Flow through vents must be installed if constructed below Base Flood Elevation in AE flood zone**
- **Non-conversion agreement filed at Clerk's Office, provided by permit office**

- **200 square feet or less in 140 mph wind zone**
 - **Plans from manufacturer or rough sketch. No plan review**
 - **Flow through vents must be installed if constructed below Base Flood Elevation in AE flood zone**
 - **Must be tied down**
 - **Non-conversion agreement filed at Clerk's Office, provided by permit office**

- **Over 200 square feet in 140mph wind zone**
 - **Must submit architect or engineered stamped plans, including the foundation design certifying wind load and design criteria**
 - **Flow through vents must be installed if constructed below Base Flood Elevation in AE flood zone**
 - **Non-conversion agreement filed at Clerk's Offices, provided by permit office**

****ATTENTION**:** **Complete Set of Plans must remain on job site at all times.**

The Cameron Parish Police Jury is working diligently to provide the citizens of our Parish with the most accurate up-to-date information. The information contained in this bulletin has been provided to assist in the submittal process for permitting. Additional documentation and information may be required as necessary.
