MANUFACTURED HOME INSPECTION REQUIREMENTS

MANUFACTURED HOMES: (call for inspection with your permit #)

1. The manufactured home is in place with wiring completed from service pole to MH & A/C disconnect (in conduit)

**** Make application with your electrical service provider prior to placement of electrical service****

2. Plumbing piping installed (to sewer system) and gas piping installed (if applicable)

3. Municipal Address posted **MUNICIPAL ADDRESS:** _ _ _ _ _

The Parish will assign a municipal address that must be displayed on the structure at the time of inspection. The house numbers must be made of permanent material and contrasting color, so that they can be easily seen (3 inches or taller **wood or metal numbers**). If the structure is set back more than **50 feet** from the street, put the numbers at the edge of the driveway on one of the following: **gate post, fence post, mailbox post (if located on the same side of the road)**, or other permanent structure **and** at the side of the front door.

****For Entergy and Jeff Davis Electric customers, the address must be posted to connect utilities for electrical power.****

5. Louisiana Manufactured Housing Commission "installation permit" sticker affixed to MH (*it is the responsibility of the "installer" to obtain & place this sticker as certification that proper appropriate installation standards have been adhered to.*)
6. Elevation Surveys (Required in A, AE, V, & VE flood zones)--- A Final elevation certificate shall be submitted prior to issuance of Letter of Occupancy.

**** ALL machinery (eg. A/C, Sewer Pump Motor) servicing dwelling must also be at the lowest required base flood elevation****

****Failure to comply with inspection requirements may result in assessment of fines!****

****Electrical power will be released to utility company when inspection has been approved!****

****I have read and understood the above information on inspection process:**
