For any addition with a fair market value equal to or exceeding 50% of the fair market value of the existing structure (Substantial Improvement), the entire structure must comply with all current code requirements. The following documentation may be required to determine if Substantial Improvement rules apply:

- Itemized construction estimate from a licensed general contractor
- Appraisal, Real Estate Broker's Comparable Analysis, or Assessment value of existing structure.
- If construction estimate exceeds 50% of existing building fair market value, a recent Elevation Certificate is required to determine if building meets current elevation requirements.
